

# Boat Lift Canopies COVERTUFF™

## Made with **COVER TUFF™** Vinyl

CoverTuff™ vinyl is produced with an *exclusive* extrusion coated process that fabricates a superior product. Compared to stiff vinyl laminates, CoverTuff™ handles easier and remains soft and pliable in any weather condition for long lasting protection.

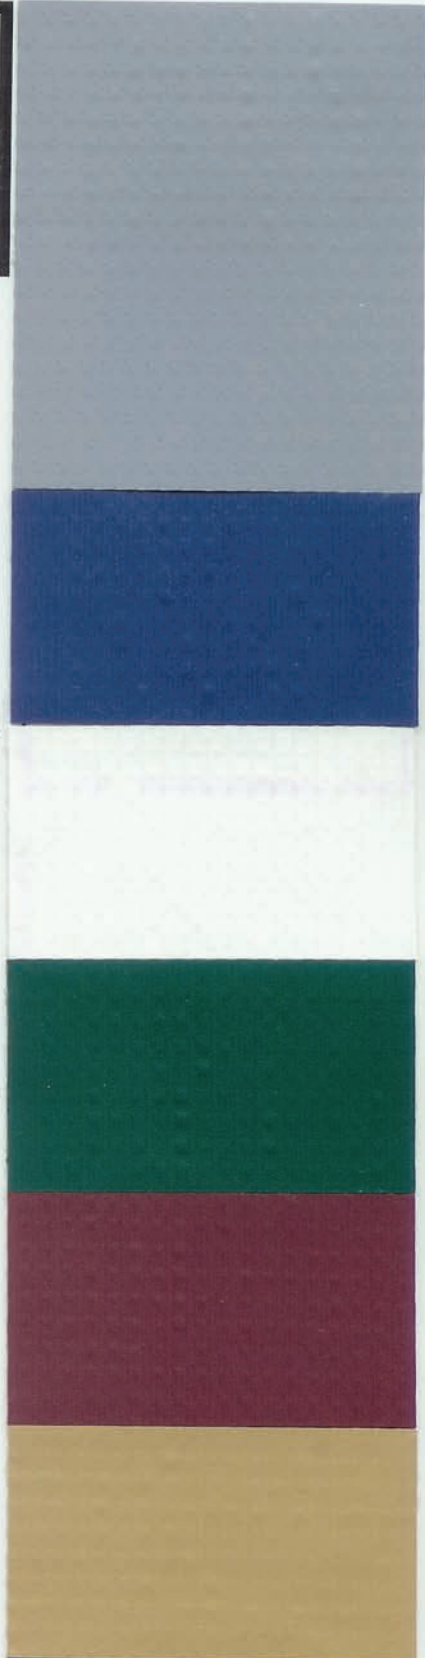

### Product Features

- top coat for cleanability and longer life
- far more pliable in lower temperatures
- softer with less wrinkling
- U.V. resistant for long life
- anti-wicking scrim
- resists cracking & peeling better than laminates
- rot & fungus resistant
- extrusion process outperforms stiff laminates
- dimensionally stable
- resists internal and external mildewing

### Typical Physical Properties

| Property:                        | Typical Test Results: | Test Method: |
|----------------------------------|-----------------------|--------------|
| Total Weight (yd <sup>2</sup> ): | 16 oz                 | ASTM D3776   |
| Tear (lb):                       | 76 (w) x 54 (f)       | ASTM D1117   |
| Tensile (lb/inch):               | 239 (w) x 212 (f)     | ASTM D751    |
| Adhesion (lb/inch):              | 17 (w) x 22 (f)       | ASTM D751    |
| Cold Crack (1/8 Mandrel):        | -50° C                | ASTM D2136   |
